

AUSTRALIAN GOVERNMENT TARGETED PROGRAMS

Australian Government Quality Teacher Program (AGQTP)

For Information only

October 2009

2010 Program

The Department of Education, Employment and Workplace Relations (DEEWR) has indicated that continued funding to support Australian Government Quality Teacher Program (AGQTP) for the 2010-2013 quadrennium has been approved by the Minister. Guidelines for this program are currently being developed by DEEWR. Once these have been finalised and become available AISV will develop an Activity Plan for independent schools.

Invitations to schools to nominate their interest in participating in a range of school based professional learning programs will be extended once the Activity Plan is completed. It is anticipated this will be before the end of Term 4, 2009, but is depended on the finalisation of the Guidelines.
