

# AUSTRALIAN GOVERNMENT TARGETED PROGRAMS

## Vocational Education and Training (VET)

**For Information only**

**October 2009**

### **2010 Program**

A VETiS course can only be considered for VET in Schools funding if it provides credit towards a recognised AQF II & III VET qualification with the Australian Qualifications Framework (AQF).

The Victorian Curriculum and Assessment Authority (VCAA) requests that schools enter student data onto the Victorian Assessment Software System (VASS) system, and provide a number of enrolment dates.

In 2010 AISV VET funding allocations to schools will be based on the numbers of students undertaking accredited AQF II and III VET Certificates that have been entered on the VASS as at Enrolment 2 date, published in VCE and VCAL Administrative Handbook 2010 (Important Administrative Dates). School Based Apprentices (SBAs) will not be included in these funding calculations.

A copy of the AISV 2010 VET Teaching and Seminar program is attached for the information of VET Coordinators. A full program may be viewed online at <http://www.ais.vic.edu.au/schools/gov-programs/index.htm>
